

# L08 Laundry Swan Bleach

## Peracid base bleach

### Application

- Oxygen based bleach.
- Suitable for both cotton and polyester-cotton.
- For use in soft water.

### Properties

- Peracetic acid based bleaching active.
- Delivers excellent bleaching performance between 40°C and 75°C.
- Acts also as alkalinity neutraliser in the rinse.
- The product can wash effectively at 40 - 60°C for the different degrees of soiling.

### Composition according EC-directive

Contains peracetic acid, hydrogen peroxide in addition to acetic acid and stabilizers.

### Physical-chemical properties

Density (20 °C)	1.1 g/ml
pH-value (1%)	2.6

### Use instructions

Recommended dosage ml/kg dry fabrics:  
- 3.5 ml/kg (0.7 ml/l) according to the requirements of the process.

### Nordic Ecolabeling

The classification and labelling of L08 Laundry Swan Bleach is due to the presence of peracetic acid and hydrogen peroxide, which degrade into non-classified substances during the washing process.

**Packaging** 20 L canister

**Code** 0W7RBI (PNC 432731146)

### Environment

- Chlorine free, i.e. no AOX contribution.
- Readily biodegradable.
- COD-value: 269.390 mg/Kg

### Safety and transport

GHS03 - GHS05

GHS07 - GHS09

UN 3149

Meets European directives on the classification, packaging and labelling of dangerous chemical substances and preparations.

### Storage

Use above 5°C. Store above -20°C and below 35°C.
